## SYSTEM

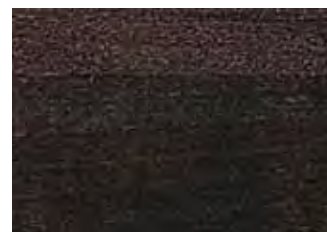

Designed with an exceptional attention to detail. With its decorative elements: the fine details on the fronts and the soft curves of the ornamental profiles, the Rafael suite combines both subtlety and class. Its sophisticated character is emphasized by metal decorations in the colour of antique gold, while the slender, fluted feet give the suite a sense of lightness.

☛ "warm" or "cold" lighting colour can be selected,

☛ optionally available with the 'Silent' soft close drawer system

## *The magic of memories*

The combination of carefully selected materials, stylish beauty and cutting-edge technology has resulted in the creation of unique sofas and armchairs.

Their high backrests, wide elbow-rests and generous padding guarantee comfort. Why not take a seat?

*The epitome Of leisure and style*

In order to appreciate the charm of classic furniture, we must sensibly approach spatial arrangement issues. A stylish living room or bedroom will not "tolerate" cramped arrangements.
