# SYSTEM LANAO

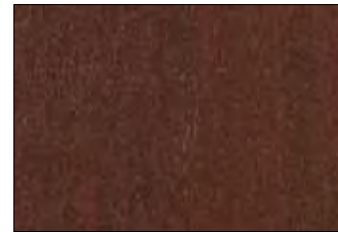

The chairs from this collection combine elegance with ergonomic design. Their tall, suitably shaped seats and backrests maintain a comfortable sitting posture. The carefully designed backrest provides perfect support and encourages a natural curvature of the spine.

LANAO

TIME FOR  
A CHANGE

The Lanao system has an amazing capability of adjusting itself to any interior, regardless of its size. The ease of creating customised, multi-unit furniture arrangements will unleash your creativity. Perhaps it is time for a change?

**SWOJE  
POMYSŁY**

Small and large bookshelves, cabinets featuring both open and door-enclosed shelves, desks, chests of drawers with generous storage capacity – working is much easier when everything is in its correct position. Besides, storing things can be a way of expressing oneself.

The bed is the most important piece of furniture in the bedroom (not only according to Feng Shui). It should be made from natural materials, preferably wood. The space under the bed should be kept empty, so that the air (and the Chi energy) can flow freely. The headrest should be higher than the opposite side of the bed.
